

November 02, 2021

To whom it may concern,

World Vision International is a humanitarian organization registered in Lebanon under presidential decree no. 2520 and is part of World Vision International, operating in nearly 100 countries in the world. World Vision is in consultative status, category II, with the UN Economic and Social Council, and has similar status of working relationships with UNICEF, UNHCR, The World Food Program and The World Health Organization.

This is to confirm that **Al Mazen For Engineering** have worked for World Vision Lebanon following the Beirut blast in August 2021 on the rehabilitation of households and common areas in Beirut and Mount Lebanon.

Al Mazen For Engineering had completed the works assigned to their teams with high level of professionalism and commitment, where the end results matched the required specifications.

During this period, we had a good experience with them in terms of efficiency, reliability and prompt reply. Al Mazen for Engineering is considered to be a reliable supplier and very responsive and can meet the challenging operational needs of World Vision as an International NGO.

This certificate was issued upon his request.

Kind regards,
